DESCRIPTION

SOLBERG® 3% MIL-SPEC SFFF (Patent pending) is specifically designed to meet the needs of military land-based operations. SOLBERG 3% MIL-SPEC SFFF foam concentrate contains cutting-edge technology that is not persistent, contains no silicone/siloxane chemistries, and contains no intentionally added per- and polyfluoroalkyl substances (PFAS). SOLBERG 3% MIL-SPEC SFFF is designed for fast knockdown and extinguishment of gasoline and Jet A fuel spill fires as identified in MIL-PRF-32725 (I1). This fluorine-free foam concentrate is a combination of proprietary hydrocarbon surfactants and additives delivering excellent foaming, vapor sealing, and stability.

APPLICATIONS

SOLBERG 3% MIL-SPEC SFFF is specifically designed for fast knockdown and extinguishment of gasoline and Jet A/Jet A1 fuel spill fires. SOLBERG 3% MIL-SPEC SFFF can also be used with low-expansion discharge devices, including a variety of nozzles and monitors. It is fully compatible and easily proportioned with standard firefighting equipment, including in-line inductors, self-inducting nozzles, fire truck pumps, bladder tanks, pump skids, balanced pressure systems, and more.

STORAGE/MATERIAL COMPATIBILITY

SOLBERG 3% MIL-SPEC SFFF should be stored between 35°F - 120°F, preferably in the original containers. It is compatible with multiple materials of construction found in firefighting equipment. According to MIL-PRF-32725, this product is not compatible with other products listed on the Qualified Products Database. For questions about material of construction compatibility, consult Perimeter Solutions technical services.

The shelf life of any foam concentrate is maximized by proper storage conditions and maintenance. Factors affecting shelf life are wide temperature fluctuation, evaporation, dilution, and contamination by foreign materials. When stored in original containers or in manufacturer-recommended equipment and within the specified temperature range SOLBERG foam concentrates have demonstrated effective firefighting performance of 10 years or greater.

CAUTIONS

Foams should not be used in contact with electrical equipment or with chemical products that can react with water. It is recommended to avoid contact of the foam concentrate with skin. In case of eye splashes, wash with plenty of water. In case of ingestion, do not induce vomiting, drink water and seek medical advice.
