

# SOLBERG<sup>®</sup> MOBILE FOAM CART (POLYETHYLENE TANK)

## FEATURES

- One person operation
- Rugged frame
- 35 gallon (130 litres) polyethylene tank
- 1.5" or 2.5", inline eductor, mounted
- Hose storage rack capable of holding 50 ft (15 m) fire hose
- Heavy duty industrial 16.0" x 4.0" (406 mm x 102 mm) wheels and tires

## DESCRIPTION

The SOLBERG<sup>®</sup> Mobile Foam Cart is designed and constructed for one-person operation. This foam station can function at its full potential quickly in an emergency situation.

Foam concentrate is stored in a 35 gallon (130 litres) polyethylene tank equipped with a 66 gpm

(250 lpm), 106 gpm (400 lpm) or 211 gpm (800 lpm) eductor and pick-up tube. The pick-up tube is connected to the tank and utilizes a metering device to determine what percentage of foam concentrate is introduced into the water stream. On the inlet of the eductor, a supply fire hose is connected that delivers water from an independent source. A fire hose and discharge nozzle are connected to the outlet. When in operation, water flows through the eductor creating a vacuum that draws foam concentrate out of the tank to the metering valve of the eductor and into the water stream, delivering foam solution to the nozzle.

**Note: gpm (lpm) of nozzle and eductor must match or unit will not operate as intended.**

## APPLICATION

The SOLBERG Foam Cart is designed to provide firefighting capabilities to multiple hazard areas containing Class B fuels. Common high-hazard high-risk areas include:

- Flammable liquid storage
- Mining operations
- Paint storage areas
- Tank farms
- Wood manufacturing/processing areas

## SPECIFICATIONS

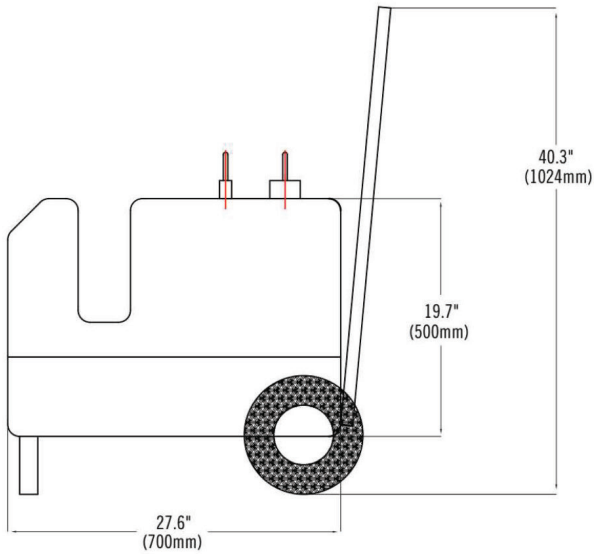

The foam cart consists of a 35 gallon (130 litre) polyethylene foam concentrate tank. The frame is constructed of carbon steel tube and angle. Eductor material is brass. The eductor is either a 1.5" (38mm) or 2.5" (63mm) inline eductor with pick-up tube and metering valve for adjustment of 3% or 6% proportioning. One 50 ft (15 m) hose length with threaded couplings is provided. The inlet hose is 1.5" x 50' (38 mm x 15 m) or 2.5" x 50' (63 mm x 15 m) coupled and the outlet hose is 1.5" x 50' (38 mm x 15 m) or 2.5" x 50' (63 mm x 15 m) depending on model type. Handline nozzle is included. Alternative (customer supplied) handline nozzles capable for use with the foam cart include medium expansion, air-aspirated or non-air aspirated nozzles with the same gpm (lpm) as the eductor.

## OPTIONS

- STORZ fittings
- 1.5" x 50' hose (38 mm x 15 m)
- 2.5" x 50' hose (64 mm x 15 m)
- 66, 106 or 211 gpm (250, 400 or 800 lpm) by-pass manifold - stainless steel
- Hydrant-spanner wrench set
- For use with SOLBERG foam concentrates (RE-HEALING<sup>™</sup>, ARCTIC<sup>™</sup>, FIRE-BRAKE<sup>™</sup>)
- Vinyl cover
